

## Cut-outs for Diorama

---

The following figures can be used if the pupils do not want to draw figures. It is best to encourage the pupils to be creative and draw their own figures.

1. Cut-out the figures of the donkeys and Nyakundi leaving the tabs underneath attached.
2. Make scenery for the diorama.
  - Colour the ground green or use green construction paper or paste dried grass to the bottom of the diorama.
  - Draw the market buildings, colour, cut out and paste in the diorama.
  - Draw the river using colours.
3. Fold under the base of the figures of the donkeys and Nyakundi so they stand up.
4. Arrange the figures in the diorama.
