

The Tri-fold Model

The Tri-fold Model (looks like the corner of a room) and is made by following the steps:

<p>1</p>  <p>Use a rectangular piece of cardboard, strong paper or construction paper.</p>	<p>2</p>  <p>Hold the paper horizontally and fold in half.</p>
<p>3</p>  <p>Keep the paper folded and fold again.</p>	<p>4</p>  <p>Open the paper all the way.</p>
<p>5</p>  <p>Turn the paper horizontally.</p>	<p>6</p>  <p>In the center of the paper, rip or cut on the fold half way down to the center of the paper.</p>
<p>7</p>  <p>Fold the paper to overlap the two squares adjacent to the cut.</p>	<p>8</p>  <p>Staple together.</p>

Contents

1. **The Landscape** (the trees, grass, rocks, roads, paths);
 - glue grass, straw, twigs, leaves, sand, pebbles, or dirt onto the floor of the diorama
 - use paper maché, plasticine or clay to create hills, valleys and river banks

2. **The River**
 - paint a river shape with blue paint
 - use plastic blue bags, cut and shape into a river-shape, then glue
 - Use plastic wrap for the river

3. **Structures** (tukels, storehouses, animal shelters, market, trees or bridge):
 - glue clay, dirt, sand, paper maché, plasticine, cardboard, or paper
 - glue leaves, twigs, pieces of wood

4. **Animals and People**
 - use paper maché, plasticine, clay or cardboard
 - use plastic or wooden toys
 - use paper and cardboard

5. **Putting the Diorama Together**
 - place the contents in the diorama, moving objects around until satisfied then glue down
 - make notes for presentation
