

Fruit Mobile

Fruit Mobile can be used to display fruits, vegetables, shapes or a variety of other concepts. Use twine, yarn or string to fasten two sticks together in an "X" shape. Hang the shapes from the sticks using twine or thread. Hang completed mobile.

Materials:

- colored paper
- scissors
- crayons, markers or paint
- paste
- twine or thread
- two sticks in X shape

Directions:

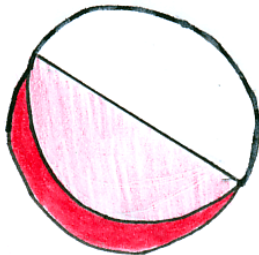

1. Decide on the fruits to make such as apple, watermelon, pear, peach, orange, mango, pineapple, and so on.

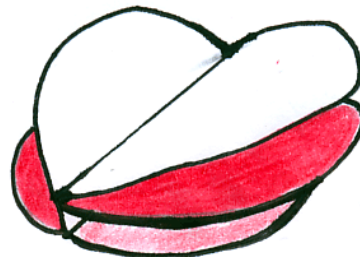

2. Start with an apple. Fold a piece of construction paper in half. Draw outline of half of an apple on the fold-line. Cut out. Use as a template to make 4 more apples.

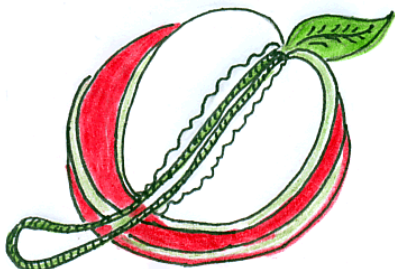

3. Color one side of each apple. Fold each apple in half.

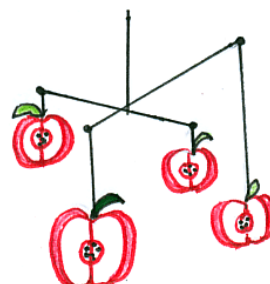

4. Spread glue on one of the plain halves of one of the apples. Press another half of another folded apple onto glued area.

5. Run line of glue down center area. Place the thread in it so the ends are in paste and looped end is free. Paste last folded apple in place to close apple. Let dry.

7. Make other fruits. Attach fruits to X shape. Hang-up mobile.
